## SUMMARY

MERN Stack Developer with hands-on experience in building scalable full-stack applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API development, authentication (JWT, OAuth), and modern frontend tools like Redux Toolkit and Tailwind CSS.

## SKILLS

**Languages:** JavaScript (ES6+/ECMAScript), TypeScript

**Frontend Development:** HTML, CSS, Tailwind CSS, Bootstrap, React.js, Next.js, Angular, Material UI, Shadcn UI, Responsive Web Designing, Hooks, Context API, Redux Toolkit, Component-Based Architecture

**Backend Development:** Node.js, Express.js, MVC Architecture, REST API Development, API Integration, Multer, JWT, Bcrypt, OAuth 2.0, JSON

**Databases:** MongoDB, PostgreSQL, MySQL

**Tools & Practices:** Git, GitHub, GitHub Actions, Docker, Docker Compose, Postman, NPM, Testing, Debugging

**Soft Skills:** Problem Solving, Requirement Analysis, Team Collaboration, Time Management, Adaptability, Continuous Learning

## WORK EXPERIENCE

### MERN Stack Developer Intern, Synnefo Solutions

Jul 2025 - Feb 2026

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js (MERN stack).
- Designed and implemented secure RESTful APIs following MVC architecture.
- Integrated frontend applications with backend services using JWT authentication and secure API endpoints.
- Built dynamic and responsive user interfaces using React.js, Hooks, Context API, Redux Toolkit, Tailwind CSS, and Material UI.
- Performed CRUD operations, database design, and query optimization in MongoDB.
- Implemented password encryption and authentication using bcrypt and OAuth 2.0.
- Handled file uploads and backend utilities using Multer and Express.js.
- Used Git, GitHub, Postman, and NPM for version control, API testing, and development workflow.

## PROJECTS

### Talent-IQ

[Live Link](#)

- Developed a full-stack MERN-based interview platform enabling real-time coding sessions and live collaboration.
- Implemented authentication and user management using Clerk for secure login and session handling.
- Built features for creating and joining interview rooms with role-based access (host and participant).
- Designed a live coding environment supporting multiple problems within a session.
- Integrated RESTful APIs for session management, problem handling, and user-specific dashboards.
- Containerized the application using Docker and deployed on Render for scalable hosting.
- Improved user experience by filtering and displaying only logged-in user sessions in the dashboard.

### Double Barrel

[Repository](#)

- Developed a full stack MERN e-commerce application using React.js, Redux Toolkit, TypeScript, Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication and role-based access control.
- Built product management, cart, and order processing workflows.
- Integrated frontend and backend modules using RESTful APIs.
- Collaborated with teammates using Git and GitHub for feature development and bug fixing.

## **EDUCATION**

**ME(A)RN Stack Development Course**  
Synnefo Solutions

Jul 2025 - Jan 2026

**Diploma in Information Technology**  
Government Polytechnic College, Purapuzha

2022 - 2025

**Higher Secondary Education**  
GOVT HSS Muppathadam, Aluva, Kerala

2022

## **LANGUAGES**

English, Malayalam
